

10TH INTERNATIONAL
NEONATOLOGY ASSOCIATION CONFERENCE

INAC2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Pre Congress Workshops

Thursday 6 November 2025

07:00 - 17:00

Registration

Pre Congress Workshops:

08:00 - 12:00

Workshop 1: A tour of Congenital Heart Disease
Presenter: Jose Honold

12:00 - 13:00

Coffee and Light Lunch Break - Lobby

13:00 - 17:00

Workshop 2: Integrated Evaluation of Hemodynamics in the NICU
Presenters: Elisa Proença, Sandra Pereira and Catarina Liz

17:30-18:30 Welcome Reception

INAC2025

10TH INTERNATIONAL
NEONATOLOGY ASSOCIATION CONFERENCE

INAC2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Friday 7 November 2025

07:00 - 17:00

Registration

08:00-08:15

Welcome Introduction: Jose Honold, Christian Poets, Carmen Carvalho

Session 1: Respiratory support I

8:15-8:45

AI in the NICU: potential and challenges - John Lantos

8:45-9:15

High vs. low PEEP after extubation - Brett Manley

9:15-9:45

Azithromycin for BPD prevention (AZTEC) - Sailesh Kotecha

09:45-10:15

Coffee Break, Poster Presentation and Exhibition Viewing

Session 2: Respiratory support II

10:15-10:45

In-hospital respiratory trajectories of extremely preterm infants - Brett Manley

10:45-11:15

iNO for BPD prevention - Hussnain Mirza

11:15-11:45

Extended CPAP or HFNC to prevent IH? - Waldemar Carlo

INAC2025

INAC 2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Friday 7 November 2025

Session 3: Nephrology; PDA

11:45-12:15	Closing the PDA with Acetaminophen (Treocapa) - Jean-christophe Rozé
12:15-12:45	Update on neonatal nephrology - Liane Costa
12:45-13:15	Very long term sequelae of neonatal lung disease in former extremely preterm infants - Neil Marlow
13:15-14:15	Lunch Break, Poster Presentation and Exhibition Viewing

Session 4: Nutrition; antenatal steroids

14:15-14:45	Neurocognition after dextrose gel for hypoglycemia - Jane Harding
-------------	---

Session 4: Oral Presentations

14:45-14:55	Descriptive Study of Neonatal Sepsis, Antibiotic User Index(aur) and Emerging Antibiotic Resistance Pattern Studied at Tertiary Care Referral Centre Over One Year. - Vijay Keshav Kulkarni
14:55-15:05	Reducing The Incidence of Central Line-Associated Bloodstream Infection (CLABSI) By Implementing Bundled Intervention For Central Lines Management - Yara Elkhatab
15:05-15:15	A Study to Determine the Time Taken for First Successful Latch in Newborn at Birth in a Tertiary Care Centre, a Prospective Observational Study - Vijay Keshav Kulkarni
15:15-15:25	The objective evaluation of premature infant oral motor intervention (PIOMI) and Kinesio taping during transition to oral feeding in Preterm Infants: A pilot study - Deniz Anuk Ince

10TH INTERNATIONAL
NEONATOLOGY ASSOCIATION CONFERENCE

INAC 2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Friday 7 November 2025

15:25-15:35	The Schwartz Round at the neonatal unit is helping improve both the staff working environment and the quality of patient care. - Lizaveta Collins
15:35-15:45	Qualitative Evaluation of EHR Changes for Newborn Feeding in a National EHR - Orla Sheehan
15:45-16:15	Coffee Break, Poster Presentation and Exhibition Viewing
16:15-16:45	Nutritional interventions for late-preterm infants - Jane Harding
16:45-17:15	Ethical aspects in neonatology - John Lantos
17:15-17:45	6-year follow-up on repeat antenatal steroids - Cynthia Gyamfi-Bannerman
19:00 onwards - Networking Dinner	

10TH INTERNATIONAL
NEONATOLOGY ASSOCIATION CONFERENCE

INAC2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Saturday 8 November 2025

07:00 - 17:00

Registration

Session 5: Therapeutic issues affecting infants in LMICs

8:00-8:30

Improving access to breastmilk in LMICs: The role of lactational support and breastmilk banking - Anna Coutoudis

Session 5: Oral Presentations

8:30-9:00

Why might therapeutic hypothermia not work in some settings? - Reema Garegrat

9:00-09:10

The Neuroprotective Effect of Tub-A After Severe Hypoxia-Ischemia in Neonatal Rats May Be Sex-Dependent - Daniel Alonso-Alconada

09:10-09:20

Is the Hammersmith Neonatal Neurological Examination Predictive of Neurodevelopmental Outcome in Extremely Preterm Infants at 2-Years Corrected Age? - Cheo Lian Yeo

09:20-09:30

LOX-1 in hypoxic-ischemic condition mediates inflammatory activation of microglia - Masayuki Ito

09:30-09:40

The Impact of Oxygen Reserve Index (ORi) Monitoring in Preterm Neonates: A Critical Reflection on Oxygen Management - Catarina Liz

INAC2025

INAC 2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Saturday 8 November 2025

09:40-09:50	Optimising the Recognition and Management of Neonatal Jaundice: A Quality Improvement Project - Sadaf Naseer
-------------	--

09:50-10:00	Visualising Human Endometrial Gland Epithelial Cells in 3D Using Serial Block Face Scanning Electron Micrographs - Yasmine Hulf
-------------	---

10:00-10:30	Coffee Break, Poster Presentation and Exhibition Viewing
-------------	---

Session 6: A focus on the brain

10:30-11:00	Neurodevelopment after donor milk vs. formula - Tarah Colaizy
-------------	---

11:00-11:30	Eat, sleep, console for neonatal opioid withdrawal - Leslie Young
-------------	---

11:30-12:00	Human-milk based fortifier - Really worth the effort? - Thomas Abrahamsson
-------------	--

12:00-12:30	Anti-seizure medications for neonates with seizures - Ronit Pressler
-------------	--

Session 6: Oral Presentations

12:30-12:40	Neonatal Physiotherapy in a Portuguese NICU: Focus on Very and Extremely Preterm Infants - Andreia Rocha
-------------	--

12:40-12:50	Uptake of Continuous Airway Pressure and Outcomes among newborns admitted in three county Hospitals in Nairobi, Kenya. - Resty Musigula
-------------	---

12:50-13:00	Comparison of different risk assessment models for predicting postdischarge phototherapy requirement in neonates - Selma Aktas
-------------	--

10TH INTERNATIONAL
NEONATOLOGY ASSOCIATION CONFERENCE

INAC 2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Saturday 8 November 2025

13:00-13:10

Integrating Palliative Care in Neonatal Intensive Care: Trends and Practices Over Ten Years - Inês Lemos Martins

13:10-13:20

13:20-13:30

13:30-14:30

Lunch Break, Poster Presentation and Exhibition Viewing

Session 7: Feeding issues and incident management

14:30-15:00

Gastric residuals - ignore or respond to? - Jan Miletin

15:00-15:30

The Clock is Ticking... How much impact does time to first milk expression have on lactation outcomes after very preterm birth? - Ilana Levene

15:30-16:00

Incidents and errors in neonatal intensive care - Maria Joao Lage

16:00-16:30

Impact of emollient therapy on the health of preterm infants - Gary Darmstadt

16:30-17:00

Oral Presentations - 3 Presentations

17:00-17:30

Coffee Break, Poster Presentation and Exhibition Viewing

Session 8: Neonatology in Sub-Saharan Africa

17:30-18:00

The African Neonatal Network, two years of data - Alex Stevenson

10TH INTERNATIONAL
NEONATOLOGY ASSOCIATION CONFERENCE

INAC2025

6 - 9 NOVEMBER 2025 | PORTO, PORTUGAL

New Trial Evidence on
Improving Neonatal Outcomes

Main Congress

Sunday 9 November 2025

08:00 - 11:00

Registration

Session 9: Neonatology in Sub-Saharan Africa

09:00-9:30

Providing Low-cost and effective neonatal care in a low-resource setting in Eastern Uganda: Potential for scale-up - Kathy Bourgoine

9:30-10:30

Oral Presentations

10:30-11:00

Coffee Break, Poster Presentation and Exhibition Viewing

Session 10: Kangaroo-Care; ROP prevention

11:00-11:30

Reducing preterm mortality through immediate kangaroo mother care: The iKMC study - Harish Chellani

11:30-12:00

5-year follow-up after intravitreal ranibizumab for ROP prevention - Neil Marlow

Closing Ceremony

INAC2025
